

Over-The-Counter Parts

Summit offers more than 50 years of experience in airframe, maintenance, modifications, avionics and paint, as well as aircraft sales and leasing to support our broad base of customers including United States government agencies, international militaries, state and local law enforcement agencies and general and corporate aviation clients.

Our core values are to provide the industry with superior service, reasonable prices, quick turnaround and quality workmanship through our AS 9100C Certification. Understanding the needs of our customers is key in providing excellent service and that's why we are now adding Over-The-Counter Parts Sales to our list of services.

Summit's OTC Part Sales will be able to provide Factory New and Rotable parts in our support to customers worldwide.
